

FOR GLOBAL JUSTICE AND PUBLIC SAFETY

Easily Drive Microsoft Azure and AI Service Adoption & Usage with Kaseware

Who Can Benefit

Kaseware customers are prioritizing and asking for AI-generated solutions that can help improve the efficiency and analysis of their investigations. Kaseware can be deployed in the customer's private Azure cloud or Kaseware's hosted Azure services.

Kaseware is ideal for large, complex, highly regulated, public safety organizations and policing agencies. We provide end-to-end solutions for investigative case management — replacing outdated or disparate systems.

About Kaseware

Kaseware is the premiere investigative case management system founded by former FBI Special Agents who created Sentinel — the case management system still used by the FBI today. With decades of experience, Kaseware is leading investigative agencies and teams to more efficient and intelligent outcomes.

With more collaboration between Kaseware and Microsoft, **agencies and organizations will be better served in their mission** to take a more proactive approach to protecting the public.

Why Kaseware?

Global Experience

With customers across 5 continents — deploying across entire countries domestic law enforcement agencies, Kaseware is experienced in the Global Justice & Public Safety sector

Easily Translated

The entire platform, including documents, messages, and other files can automatically be translated into over 125 languages and dialects within Kaseware

Increasing Demand

Kaseware customers continue to have increasing data storage needs and a desire for AI solutions

Highly Configurable

Kaseware is designed to be easily modified and configurable to the needs of any agency with customizable controls and settings to meet unique security and process needs across teams and users

Let Kaseware be the means to drive more AI and Azure usage. Reach out to one of our team members to learn how Kaseware can benefit your customers and prospects.
